OFFICE OF LEGISLATIVE COUNSEL

Tuesday - 26 June 1973

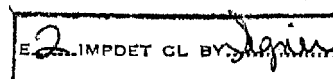

25X1 1. (Unclassified - GLC) Received a call from [] NSA, who wanted our opinion as to how firm the schedule for the Senate Subcommittee on Intelligence Operations, Appropriations Committee, budget hearings on the intelligence community was for 11 and 12 July. I told [] these things were always subject to change but I thought Senator McClellan was most anxious to stick with this schedule in view of the numerous delays which have already occurred in setting up these hearings.

2. (Confidential - GLC) Talked with Ed Braswell, Chief Counsel, Senate Armed Services Committee, who advised that he had received a letter from the Department of Defense indicating that previous information passed to the Congress regarding an item of [] in the FY 1974 Defense budget was an error.

In response to my question Braswell said it was quite possible that Mr. Schlesinger's nomination would be taken up on the floor of the Senate some time this week.

3. (Unclassified - GLC) Called Mrs. Olga Watkins, on the staff of Representative Paul W. Cronin (R., Mass.), to tell her that we had been unable to find a position for [] who was referred to us by their office. I said that despite his high qualifications there were other applicants who were better qualified for the few positions which we have open. Mrs. Watkins expressed regret and said she hoped we would keep him in mind for any future openings and would appreciate it if we could make any suggestions to him about job openings elsewhere. This was passed on to Donna, Personnel.
